

Capacity Development in  
Sustainable Water  
Management

## Networks in Capacity Development for Sustainable Water Management

Dr Themba Gumbo, Director  
Muscat, Oman 22 October 2014

## Contents

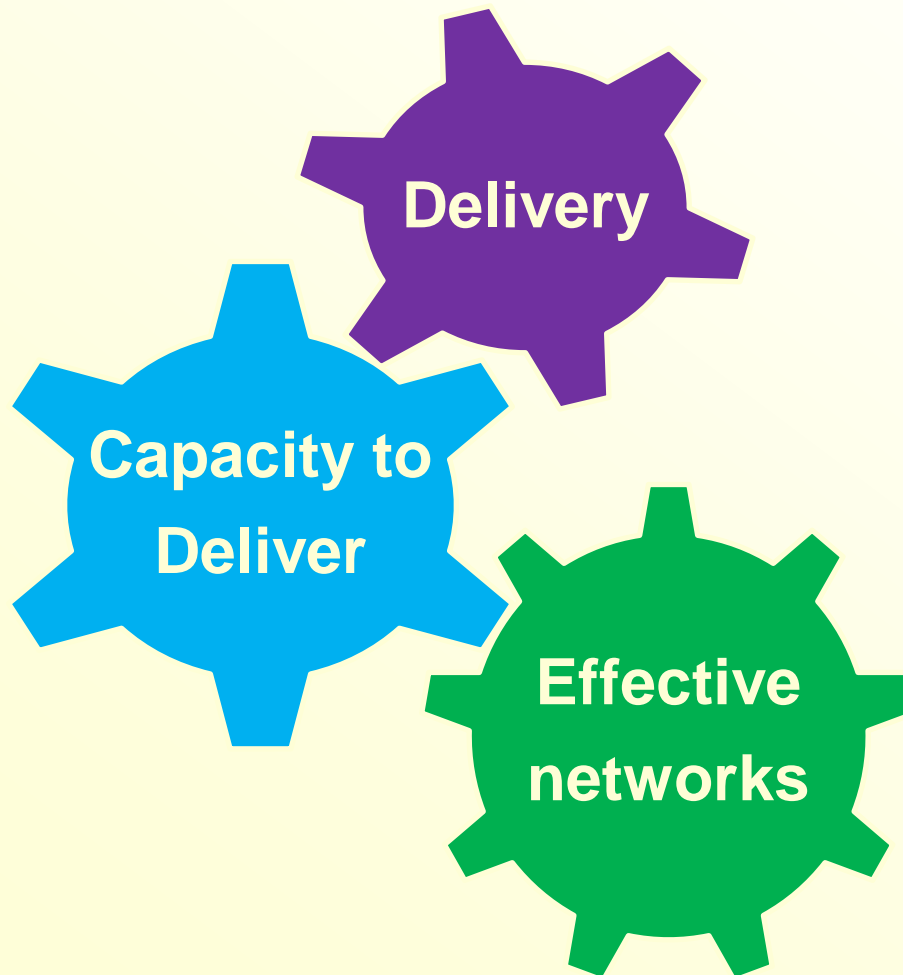

1. Power of networks
2. Cap-Net Programme
3. Products and services
4. Innovation

## Power of networks

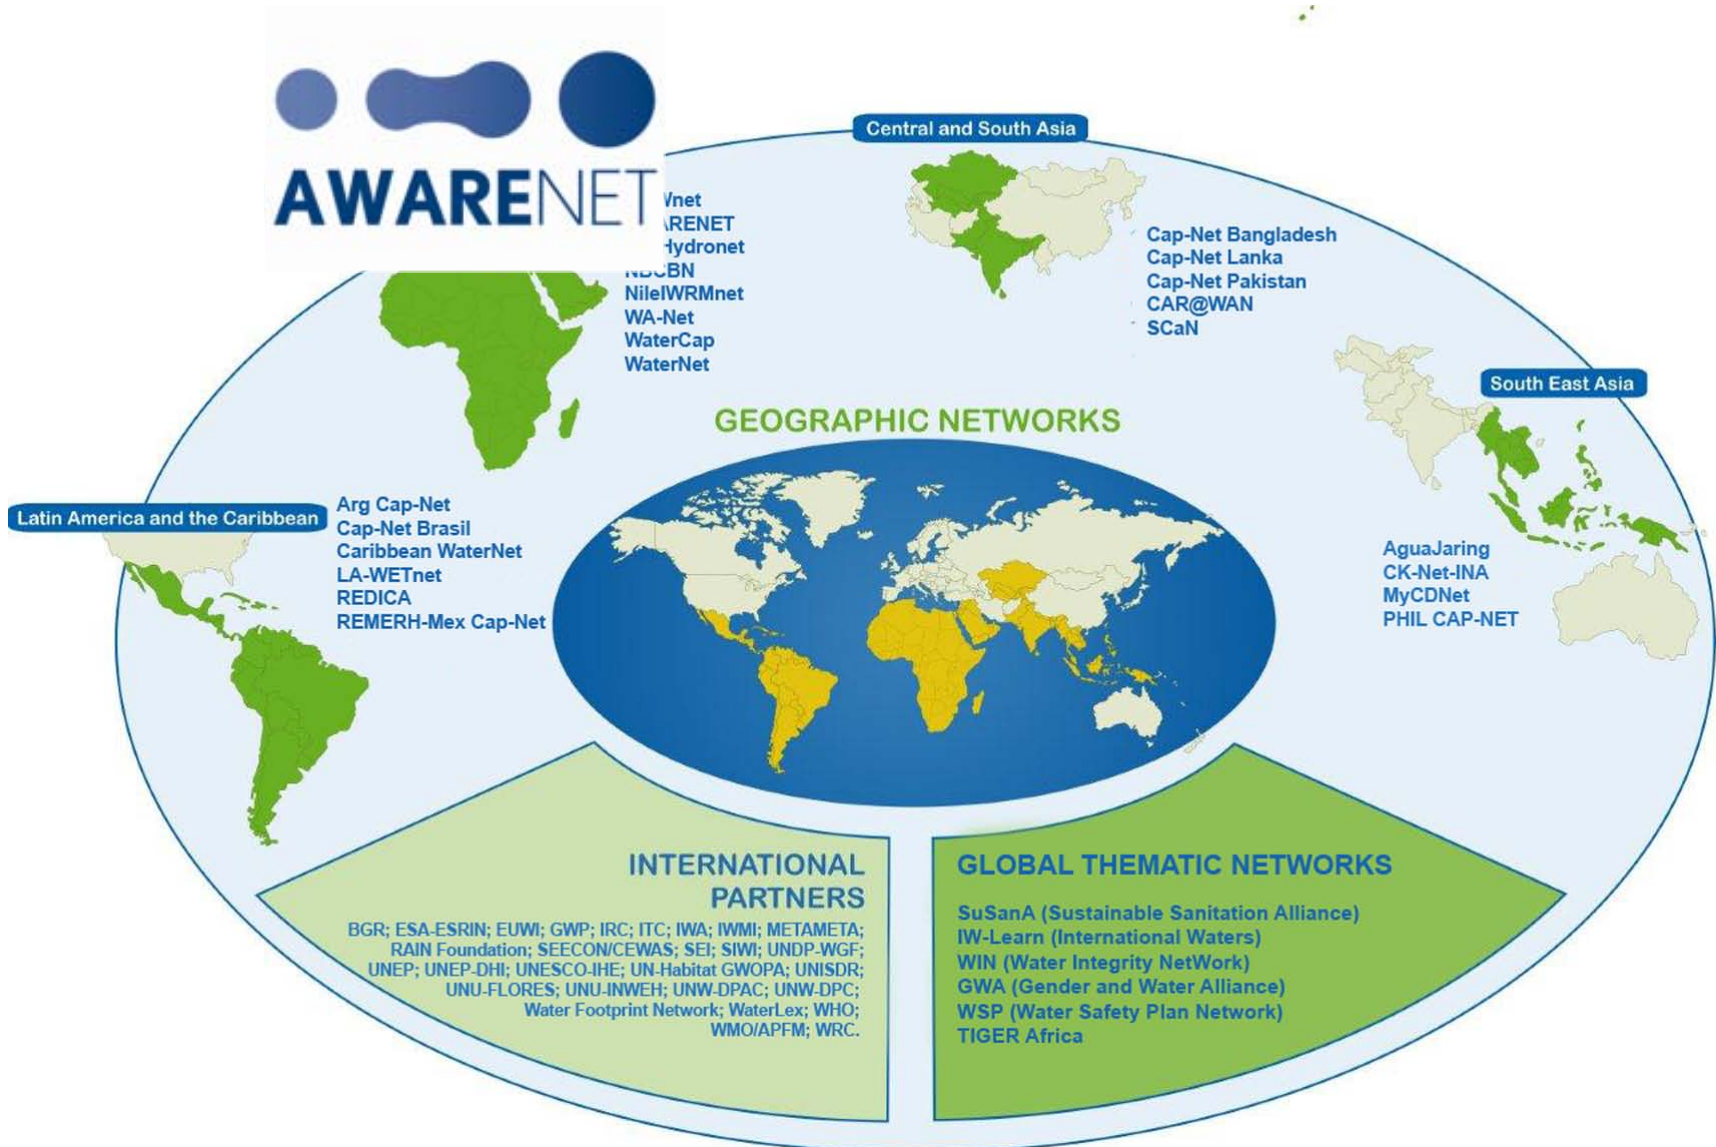

---

- Assembling skills and knowledge from different disciplines (multi and trans)
- Knowledge triangulation (SS-NS-SN)
- Building a critical mass of competence for action
- All this leading to rapid development, adaptation and transfer of knowledge

## Cap-Net Programme: Building blocks

# Engaging with local networks/partners

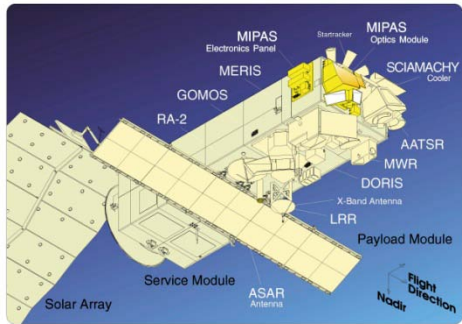

## Cap-Net Programme: Products and services

---

- 20 training products
- 4 languages (including 10 other)
- Outreach ~2,500 participants (F-to-F) and ~10,000 (website) per year
- Database of trainers/coaches and mentors
- ~1,200 water videos (Water-channel TV)

# Coming soon

- Innovation
  - Cap-Tec
  - Virtual campus

Thank you
